Dear Student

Object: Course application to **Marine Biology and Aquaculture**.

I am pleased to confirm that you have been accepted for admission to the above course, for the academic year 2026/27. The duration of the course is 2 years.

The University Federico II (UNINA) is proud to be one of the world's oldest Universities. We are confident that you will bring a rich and rewarding contribution to the student body and university community here and we look forward to welcoming you. You will find useful information in relation to accommodation, fees, visa, and course registration at the website <http://www.international.unina.it>.

Please note, if you are a non-EU, visa required applicant, you must apply for your visa to study in Italy. Please also note, that non-EU applicants whether they are visa required or not, are typically not granted permission to remain in Italy to pursue a part-time course of studies unless they are in possession of EU residency rights or have an alternative immigration status beyond that of a student. Student status for non-EU applicants is typically reserved for those pursuing a full-time course of studies.

As a candidate accepted for postgraduate study it is a requirement that you familiarize yourself with the regulations of your course of study. Current regulations can be found at <http://www.dipartimentodibiologia.unina.it/en/courses/marine-biology-aquaculture/>

Please, note that it will be a requirement to register annually for each year of your course of study.

If you have any queries or we can be of any further assistance to you with your decision process, please do not hesitate to contact me.

Yours sincerely,

The Master Coordinator
Prof. Francesca Carella
